

February 28 – March 5, 2017, Ohrid

FIRST ANNOUNCEMENT

for the South Eastern European Mathematical Olympiad
for University Students with International Participation
February 28 – March 5, 2017, Ohrid

Organizers

October 25, 2016

Dear colleagues,

We are pleased to inform you that the Mathematical Society of South-Eastern Europe is launching the 11th Mathematical Olympiad for first and second year university students (**SEEMOUS 2017**). This prestigious student competition will be hosted by the Union of Mathematicians of Macedonia (UMM) between **February 28 and March 5, 2017 in Ohrid**, FYR of Macedonia. The aim of this competition is to encourage mathematically gifted university students for further success, to create friendly relationships between them and to exchange information among participating universities about mathematics syllabi in higher education.

We kindly invite you to participate in SEEMOUS 2017 with a team from your university. A team may consist up to 6 students and 2 professors (a team leader and a deputy team leader). Eligible students are those who are not beyond the second university year of undergraduate studies by the end of the 2016/17 academic year or have not completed more than 120 ECTS credits. Students can form a national team to represent a country as well. The SEEMOUS regulations as well as the previous competition problems and final results can be found at <http://www.seemous.eu>

Each team can send up to three problem proposals until **February 10, 2017**. Please send your problems by e-mail to **seemous2017@gmail.com**

All SEEMOUS participants will have to cover their own travel, accommodation and subsistence expenses. A participation fee to cover accommodation and subsistence are pre-paid to the UMM as approved by MASSEE. Please note that foreign nationals intending to enter and stay in FYR of Macedonia must obtain a relevant visa before their entry. The visa application and all supporting documents are to be filed with the territorially competent diplomatic-consular mission. If FYR of Macedonia does not have a diplomatic-consular mission in the country of residence of the foreign nationals, then the visa application is to be filed with the diplomatic-consular mission of the FYR of Macedonia in the nearest country. More information about the visa regime can be found at <http://www.mfa.gov.mk/?q=node/319&language=en-gb>

Anyone interested in finding out more about the competition or how they can be involved, should contact Slagjana Brsakoska at **seemous2017@gmail.com** or visit the local website that will be launched in the middle of November 2016.

We hope that your university and your country will be able to participate this Mathematical University Olympiad. We look forward to welcoming your delegation in Ohrid.

Best regards,
Aleksa Malčeski
President of the UMM
